

ECO-RECORDS (INJECTION MOLDED PET RECORDS)

An alternative material to PVC

Gotta Groove is excited to offer injection-molded PET records to the USA! Available only as 12" records.

Note: lead times for injection molded records differ from the published turnaround on our website for vinyl records – please inquire.

Our PET records are extremely high quality, and have real paper labels – so they look almost identical to a pressed vinyl record.

Sound quality is comparable to a GGR-pressed vinyl record.

HOW THIS PRICE CARD WORKS:

This document is arranged as three steps as you start at the top and work your way down:

STEP 1 consists of just the records (i.e., no printed packaging).

STEP 2 is where you add the costs of printed packaging, such as printed innersleeves, jackets, download codes, etc.

STEP 3 is where you add miscellaneous items, such as shrinkwrap, polybags, and other assembly add-ons.

(you can click on [red](#) text below for links to photos and more information)

However, we do recommend upgrading to either our **branded Rice Paper innersleeves** (\$.05 per record) or Black Polylined innersleeves (\$0.25 per record) (both of which minimize visible sleeve scuffs on the face of the record.)

*Gotta Groove uses ExlfilmPlus GPS shrinkwrap, which is made in part with pre-consumer recycled content, and can be recycled in many locations in the USA and Canada via the How2Recycle network.	
However, we feel that polybags are still more environmentally friendly than shrinkwrap, because they are typically kept with the record for the life of the record, vs shrinkwrap which is typically trashed.

OTHER MISCELLANEOUS INFORMATION

Pricing on this document is subject to change at any time without prior notice.

Other than the per-unit prices listed above, the whole dollar prices are LOT. This means the quantity shipped is subject to 10% overrun or underrun, but you will be billed the listed price regardless of the exact qty shipped.

Shipping is not included in the pricing on this document. All orders are shipped F.O.B. Cleveland Ohio. Orders of 300 or more units are typically shipped on a pallet via a freight carrier. Orders under 300 units are typically shipped via UPS ground, triple boxed. A triple boxing fee of \$5 per master carton will be added to all non-palletized shipments. Triple boxing can be requested for palletized shipments as well, for the cost of \$5 per master carton.

Master carton qty's are based upon the final counts and specs of the order, and may vary. Most single pocket standard weight record orders will be shipped in 60ct master cartons. Most 2LP sets will be shipped in 30ct master cartons.

Shipping costs vary widely. Typically, you can save money shipping to a commercial location – particularly one with a trailer-height (not ground level) loading dock or forklift on premises when order qty is 300 or more units. Figure a minimum shipping cost of \$150 for order qtys of 100 single LP units, \$300-500 for order qtys of 300-500 single LP units, \$350-600 for orders of 1000 single LP units, and an average of \$0.35 per unit for 2000+ units. Please note – these are extremely rough estimates, and the final actual shipping costs may be more or less, depending upon final order weight, box count, and physical location of the delivery address. A minimum \$10 per location drop ship fee for split shipments will be added to the final invoice. International addresses will incur a \$25 processing fee.

All orders require a 50% deposit, completed order form, and signed agreement to the GGR Terms of Service before work will begin.

Please note, we do not press records with uncleared samples or unlicensed records – please do not place an order if your record includes these.
